#### RECOGNITION OF PRIOR LEARNING (RPL)

Recognition of Prior Learning (RPL) is an assessment process that assesses your non-formal and formal learning to determine how your current skills and knowledge match the competency outcomes for partial or full Qualification. RPL must be based on evidence which can be matched against relevant units. This evidence will depend upon the unit and some evidence will go across a number of units. Your assessor must be satisfied that you have addressed all of the requirements of the relevant unit before they can grant you RPL in that unit. RPL assessment at The Pivot Institute allows you to evidence your skills and knowledge through the completion of an RPL kit.

The Pivot Institute's assessments are aimed at adding value to the individual and their organisations. Assessments with The Pivot Institute is true to the units of competency, but is tailored to the needs of the individual and the organisation. This means that where possible we ensure that the assessment fits into what you are doing in your workplace as part of your daily workplace activities. The result is assessment that is meaningful and valuable whilst ensuring you have the knowledge and skills as outlined in the unit of competency. Your assessments will consist of a number of tasks which will include combination of written questions, workplace project, case study, practical tasks and third party report.

#### HOW LONG WILL THE QUALIFICATION TAKE

The average time it takes to complete varies significantly depending on the skills and knowledge you already hold relevant to training and assessment as well as which units you may be able to apply for through RPL processes. If, for example, you are attending facilitated classes and you have completed the relevant activities, you still need to allow the following suggested time\* to complete the qualification:
