

DISSIMILAR METAL WELDING

This unit involves the skills and knowledge required to join together two metals that possess different chemical or mechanical properties, and so aren't necessarily a natural fit for each other.

The training is workplace/site specific and is customised to the requirements of the customer

Target Group

Appropriate for those working in operational roles where they are required to perform dissimilar welding

Pre-requisites

None

Methods of Delivery

On-site delivery

No of Participants

Up to 8 per class

Duration

One (1) day

Assessment

Theory and practical demonstration

Outcome

Certificate of Attendance

PIVOT
institute

training excellence

This training is not nationally recognised
