FACILITATED VIRTUAL DELIVERY

DELIVERY METHODS

Here at Mine Training Australia we are leaders in the field with our new hybrid delivery model. This model gives participants the choice of attending our facilitated classroom sessions either virtually via Zoom, or in person at our Perth training room in Osborne Park! Upon enrolment, you will be set up on the Pivot Online Learning System (POLS). This platform provides students with the content, resources, and assessments necessary to complete the course. Printed learner's guides, assessment material, a personalised training Roadmap, and all relevant supporting resources are provided and posted to students. Our industry-leading facilitators will guide you through the concepts necessary to complete your coursework. Please note: Face-to-face attendance is subject to availability and maximum numbers. You will be required to book your class dates. These can be changed with a minimum of five business days' notice unless under exceptional circumstances.

SUPPORTED DISTANCE DELIVERY

Participants will be provided with a hard copy pack including printed workbooks, learner's guides, assessments materials, a personalised training roadmap, and all relevant supporting resources. In addition, access will be provided to the Pivot Online Learning System (POLS). This platform holds all the learning material, assessments, and resources needed to complete the qualification.

RECOGNITION OF PRIOR LEARNING (RPL)

Recognition of Prior Learning (RPL) is an assessment process that assesses your non-formal and formal learning to determine how your current skills and knowledge match the competency outcomes for the partial or full qualification. RPL must be based on evidence that can be matched against relevant units. This evidence will depend upon the unit and some evidence will go across a number of units. Your assessor must be satisfied that you have addressed all the requirements of the relevant unit before they can grant you RPL in that unit. RPL assessment at The Pivot Institute allows you to evidence your skills and knowledge through the completion of an RPL kit.

Mine Training Australia's assessments are aimed at adding value to the individual and their organisation. Assessments with The Pivot Institute are true to the units of competency but are tailored to the needs of the individual and the organisation. This means that where possible we ensure that the assessment fits into what you are doing in your workplace as part of your daily workplace activities. The result is assessment that is meaningful and valuable whilst ensuring you have the knowledge and skills as outlined in the unit of competency. Your assessments will consist of a number of tasks which will include a combination of written questions, observations, workplace projects, case studies, practical tasks, portfolio, presentation, and third party report.

HOW LONG WILL THE QUALIFICATION TAKE

The average time the qualification takes to complete varies significantly depending on the skills and knowledge you already hold relevant to training and assessment. If, for example, you are attending the facilitated classes and completed the relevant activities, you still need to allow the following suggested time to complete the qualification.

Estimated study hours (per week)
